## PROFESSIONAL SUMMARY

I'm a detail-oriented Front-End Developer with a strong foundation in Computer Science, passionate about building intuitive and high-performance web applications. Skilled in modern front-end technologies, I focus on creating seamless user experiences with clean, efficient code. Adaptable and always eager to learn, I stay updated with industry trends to deliver innovative solutions.

---

## WORK EXPERIENCE

### Front-End Developer - Newsbar Communication [Abuja] 2022 - 2024

- Developed and maintained responsive user interfaces using React and Tailwind CSS, ensuring cross-browser compatibility and optimal performance.
- Translated UI/UX designs into interactive web components with clean, maintainable code.
- Collaborated with backend teams to integrate APIs seamlessly.
- Utilized GitHub for version control and effective team collaboration.

### Web Developer [Intern] -Newsbar Communication [Abuja] 2021 - 2022

- Designed, developed, and maintained responsive web applications using JavaScript, HTML, and CSS.
- Built dynamic user interfaces with Bootstrap, ensuring cross-browser compatibility and optimal performance.
- Collaborated with cross-functional teams to successfully deliver 5+ high-quality products ahead of deadlines, improving team efficiency and project outcomes.
- Managed version control, streamlined development workflows, and facilitated team collaboration using GitHub.

### Electrician / Departmental Admin - Nairda [Abuja] 2017 - 2020

- Assisted in electrical installations, maintenance, and troubleshooting in a construction environment.
- Coordinated departmental administrative tasks, including document management and scheduling, using MS Office.
- Collaborated with engineers to support project planning and execution.
- Utilized Canva for creating reports and presentations.

## EDUCATION

Nasarawa State University  
Bachelor of Science in Computer Science

Keffi, Nasarawa Nigeria  
2018 – 2025(*In -View*)

---

## SKILLS SUMMARY

- **Languages:** JavaScript, Python, HTML, CSS, SQL
  - **Frameworks/Libraries:** React.js, Next.js, Node.js, Express.js, Tailwind CSS
  - **Databases:** MySQL, PostgreSQL, MongoDB
  - **Platforms & Tools:** Git, GitHub, Visual Studio Code, Postman, Docker, Firebase
  - **Soft Skills:** Problem-Solving, Team Collaboration, Communication, Agile Development, Debugging
- 

## PROJECTS

Portfolio Website [Link](#) *12<sup>th</sup> October – 29<sup>th</sup> October - 2024*

- Developed a personal portfolio website to showcase projects, skills, and contact information.
- Utilized **HTML**, **CSS**, **React**, and **Tailwind** for responsive and modern design.

Cyber Truck Website [Link](#) *2<sup>nd</sup> February – 10<sup>th</sup> June - 2024*

- Building and deploying a full-stack Cyber Truck website using React for a dynamic and responsive UI.
- Utilizing Tailwind CSS for modern and efficient styling.
- Implementing Drizzle ORM for streamlined database management and queries.
- Integrating Clerk for secure authentication and user management.
- Ensuring optimal performance and scalability through best development practices.

Quick-Pad Web App [Link](#) *7<sup>th</sup> September – 22<sup>nd</sup> October - 2023*

- Built Quick-Pad using React for a fast and interactive user experience.
- Designed a responsive interface for both desktop and mobile users.
- Used React hooks and React Router for state management and navigation.
- Optimized performance and ensured cross-browser compatibility.

- Designed and developed a responsive website for a unisex salon to enhance online visibility and customer engagement.
- Implemented modern UI/UX design principles using **HTML**, **CSS**, and **JavaScript** for a seamless user experience.
- Integrated features such as service listings, contact forms, and location details to improve customer interaction.
- Ensured cross-browser compatibility and mobile responsiveness for optimal performance on various devices.
- Optimized website speed and accessibility, enhancing user satisfaction and retention.

## **CERTIFICATES**

### **Python for software engineering (Udemy) - [Certificate](#)**

***December 2024***

- Mastered fundamental and advanced Python programming concepts, including data structures, functions, and object-oriented programming.
- Gained proficiency in writing clean, efficient, and maintainable code.
- Learned to work with external libraries and frameworks relevant to software development.
- Acquired debugging and error-handling skills to optimize software performance.
- Developed problem-solving abilities through hands-on coding exercises and real-world projects.

### **Full-stack web development (Udemy) - [Certificate](#)**

***December 2024***

- Learned front-end technologies such as HTML, CSS, and JavaScript to build responsive user interfaces.
- Gained experience with back-end development using frameworks like Node.js and Express.
- Mastered database management and integration using SQL and NoSQL databases.
- Understood the complete software development lifecycle, including deployment and version control using Git.
- Built and deployed full-stack web applications, enhancing problem-solving and project management skills.

- **AI Proficiency:** Gained a comprehensive understanding of AI concepts, including Large Language Models (LLMs), generative AI, and effective prompting techniques.
- **Professional Development:** Enhanced leadership, communication, and critical thinking abilities, integrating AI tools to refine job search strategies, CVs, and personal branding
- **Creative Application:** Leveraged AI to brainstorm and create multimedia content, fostering innovation and creativity in professional tasks.
- **Operational Efficiency:** Utilized AI-driven tools to improve efficiency and data-driven decision-making in various work scenarios.
- **Entrepreneurial Empowerment:** Applied AI in developing business plans and strategies, enhancing entrepreneurial initiatives and execution.
